(2) If a number of months is to be computed by counting the months from a particular day, the period ends on the same numerical day in the concluding month as the day of the month from which the computation is begun, unless there are not that many days in the concluding month, in which case the period ends on the last day of that month.

(3) The time within which an act is required by law to be done shall be computed by excluding the first and including the last day, except that when the last day falls on Sunday or a legal holiday, then the act may be done on the next succeeding day which is not a Sunday or a legal holiday. When a public office, in which an act required by law is to be performed, is closed to the public for the entire day which constitutes the last day for doing such act or before its usual closing time on such day, then such act may be performed on the next succeeding day which is not a Sunday or a legal holiday. If any legal holiday falls on Sunday, the next succeeding day is a legal holiday.

(4) When a regulation is to take effect or become operative from and after a day named, no part of that day shall be included.

**201.04 REVIVOR; EFFECT OF AMENDMENT OR REPEAL.**

(a) The repeal of a repealing regulation does not revive the regulation originally repealed nor impair the effect of any saving clause therein.

(b) A regulation which is re-enacted or amended is intended to be a continuation of the prior regulation and not a new enactment, so far as it is the same as the prior regulation.

(c) The re-enactment, amendment or repeal of a regulation does not, except as provided in subsection (d) hereof:

(1) Affect the prior operation of the regulation or any prior action taken thereunder;

(2) Affect any validation, cure, right, privilege, obligation or liability previously acquired, accrued, accorded or incurred thereunder;

(3) Affect any violation thereof or penalty, forfeiture, or punishment incurred in respect thereto, prior to the amendment or repeal;

- (a) If there is a conflict between figures and words in expressing a number, the words govern.
- (b) If a general provision conflicts with a special or local provision, they shall be construed, if possible, so that effect is given to both. If the conflict between the provisions is irreconcilable, the special or local provision prevails as an exception to the general provision, unless the general provision is the later adoption and the manifest intent is that the general provision prevail.
- (c) (1) If regulations enacted at different meetings of the Board of Health are irreconcilable, the regulation latest in date of enactment prevails.
- (2) If amendments to the same regulation are enacted at different meetings of the Board, one amendment without reference to another, the amendments are to be harmonized, if possible, so that effect may be given to each. If the amendments are substantively irreconcilable, the latest in date of enactment prevails. The fact that a later amendment restates language deleted by an earlier amendment, or fails to include language inserted by an earlier amendment, does not of itself make the amendments irreconcilable. Amendments are irreconcilable only when changes made by each cannot reasonably be put into simultaneous operation.
- (3) In case of irreconcilable conflict with other laws, the provision which establishes the higher standard for the promotion of the health, safety and welfare shall prevail.

#### **201.07 DETERMINATION OF LEGISLATIVE INTENT.**

- (a) In enacting a regulation, it is presumed that:

- (4) A result feasible of execution is intended.
- (b) A regulation is presumed to be prospective in its operation unless expressly made retrospective.
- (c) If a regulation is ambiguous, the court, in determining the intention of the Board of Health may consider among other matters:
  - (1) The object sought to be attained;
  - (2) The circumstances under which the regulation was enacted;
  - (3) The legislative history;
  - (4) The common law or former legislative provisions, including laws upon the same or similar subjects;
  - (5) The consequences of a particular construction;
  - (6) The administrative construction of the regulation.

**201.08 PROCEDURES AND REQUIREMENTS.**

Except as otherwise specifically provided for by State law, the procedures and requirements of this Health Code shall govern the compliance and enforcement of all health matters in the City.

**201.09 SEVERABILITY.**

If any provision of a section of the Health Code or the application thereof to any person or circumstance is held invalid, the invalidity does not affect the other provisions or applications of the section or related sections which can be given effect without the invalid provision or application, and to this end the provisions are severable.

- (b) That the effect of the application of the provisions would be arbitrary in the specific case; and
- (c) That an extension would not constitute an appropriate remedy for these practical difficulties or unnecessary hardships and this arbitrary effect; and
- (d) That such variance is in harmony with the general purpose and intent of the Board in securing the public health, safety and general welfare.

### **205.09 PUBLIC RECORDS.**

- (a) Purpose. The purpose of this section is to establish procedures for compliance with Ohio Public Records Act, Chapter 149 of the Ohio Revised Code (ORC).
- (b) Public Record. Pursuant to the ORC, a public record is a record held by a public office that:
- Is stored on a fixed medium (such as paper, computer, e-mail, film, etc.);
  - Is created, received or comes under the jurisdiction of the Canton City Health Department (Health Department);
  - Documents the organization, functions, policies, decisions, procedures, operations or other activities of the office.
- 1) All records of the Health Department are public unless they are specifically exempt from disclosure under Federal Law, the Ohio Revised Code or applicable court precedent.
  - 2) It is the policy of the Health Department that, as required by Ohio Law, records will, to the extent practical, be organized and maintained so that they are readily available for inspection and copying. When required, record retention schedules are to be updated regularly and posted prominently.
  - 3) Each division of the Health Department shall identify a Records Coordinator who shall have the responsibility of maintaining the specific division's records in compliance with the Canton City Health Code. The Records Coordinator may be the division supervisor or other person as determined by the division supervisor or Health Commissioner.

- 4) Each division Records Coordinator shall identify in their record retention schedule those records that are considered public records and those that would not be considered public records. The record retention plan should be used as a guide to fulfilling requests for copies of public records.
  - 5) Where there is some question as to whether the record requested is public or if the record contains both public and confidential information, the Health Department shall immediately refer such request to the City Law Department or other appropriate entity as required by a specific program for review. Such request by the Health Department shall be made in writing and shall be dated and specify the documents, reports or records requested to be reviewed for determination. After the final determination is received by the Health Department, the public record request will be fulfilled with appropriate redaction if applicable.
- (c) Response Timeframe. Public records are to be available for inspection during regular business hours, generally, Monday through Friday, 8:00 a.m. to 4:30 p.m., with the exception of published holidays. Public records must be made available for inspection promptly. Copies of public records must be made available within a reasonable period of time. “Prompt” and “reasonable” take into account the volume of records request; the proximity of the location where the records are stored; and the necessity for any legal review and redaction of the records requested. In processing a request for inspection of a public record, a Health Department employee must accompany the requester during inspection to make certain original records are not taken or altered.
- 1) It is the goal of the Health Department that all requests for public records should be acknowledged in writing or, if possible, satisfied within five (5) business days following the office’s receipt of the request. If a request is deemed to be significantly beyond “routine,” such as seeking a voluminous number of copies or requiring extensive research, the acknowledgement must include the following:
    - An estimated number of business days it will take to satisfy the request.
    - An estimated cost if copies are requested.
    - Any items within the request that may be exempt from disclosure.
- (d) Evaluating the Requests. Each request for public records should be evaluated for a response using the following guidelines:
- 1) Although the Public Records Act does not require that specific language be required to make a public records request, the requester must identify the records requested with sufficient clarity to allow the Health Department to identify, retrieve and review those records. If a request is received by the Health Department, and it is not clear what records are being sought, the Health Department should contact the requester for clarification, and assist the requester in revising the request by informing the requester of the manner in which the office maintains its records.
  - 2) Requesters are encouraged to make any and all public records requests to the Health Department in written form. While the requester does not have to put a records request in writing, a written request enables the Health Department to identify responsive records with greater speed and accuracy.
  - 3) A requester does not have to provide his or her identity or the intended use of the requested public record(s). In many cases, however, such information could enhance the Health Department’s ability to identify, locate and/or deliver responsive public records in response to the request. If the Health Department determines that additional information would enhance the Health Department’s ability to identify, locate and/or deliver responsive records, he or she may

ask the requester to: (1) put the request in writing, (2) provide his or her name and address, and/or (3) explain the purpose of the request or intended use of the information; provided that the requester is informed that the requester may decline to provide any of this information. The Health Department may require sufficient contact information to fulfill the request, either by US Mail, electronic delivery, or inspection.

- 4) In processing the request, the office does not have an obligation to create new records or perform new analysis of existing information. An electronic record is deemed to exist so long as a computer is already programmed to produce the record through simple sorting, filtering or querying. Although not required by law, the office may accommodate the requester by generating new records when it makes sense and is practical under the circumstances.
- (e) Electronic Records. Public records in the form of e-mail, text messaging and instant messaging, including those sent and received via a hand-held communications device are to be treated in the same fashion as records in other formats, such as paper or audio tape.
- 1) Records in Health Department provided e-mail accounts, private e-mail accounts and other electronic records used to conduct public business are subject to disclosure, and all employees or representatives of the Health Department are instructed to retain their e-mails that relate to public business.
  - 2) When an email's content pertains to the work of the Health Department, employees are to treat the e-mails from private accounts as records of the public office, filing them in the appropriate way, retaining them per established schedules and making them available.
  - 3) All employees are discouraged from using private email for public business.
- (f) Denial or Redaction of Records. If the requester makes an ambiguous or overly broad request or has difficulty in making a request for public records, the request may be denied, but the denial must provide the requester an opportunity to revise the request by information the requester of the manner in which records are maintained and accessed by the Health Department.
- 1) Any denial of public records requested must include an explanation, including legal authority. If the initial request was made in writing, the explanation must also be in writing. If portions of a record are public and portions are exempt, the exempt portions may be redacted and the rest released. When making public records available for public inspection or copying, the office shall notify the requester of any redaction or make the redaction plainly visible. If there are redactions, each redaction must be accompanied by a supporting explanation, including legal authority.
- (g) Copying and Mailing Costs. There shall be no cost associated with the inspection of a public record. The first one hundred and twenty-five (125) pages of any public record request shall be provided to the requester at no cost. All other copies will be provided according to the following rates:
- 1) The charge for paper or computer printout copies (per side) is 5¢ per page.
  - 2) The charge for downloaded computer files to a compact disc is the actual cost of the media or disk.
  - 3) There is no charge for documents e-mailed or faxed.

- 4) Requesters may ask that documents be mailed to them. They will be charged the actual cost of postage and mailing supplies.

(Resolution 2014-03; passed 02-24-14)

**205.10 Non-Discrimination and Provision of Culturally and Linguistically Appropriate Services.**

- (c) Canton City Public Health shall assure the provision of health services that are culturally and linguistically competent, consumer-guided and community-based.

Signs may be placed in an individual work area indicating that smoking is not permitted. Signs shall be placed in Board-owned or operated vehicles indicating that smoking is not permitted in the vehicle.

- (d) Ashtrays. Ashtrays shall be removed from all Board facilities except that an ashtray may be placed at the entrance to each facility.
- (e) Assistance for Smokers. Employees are encouraged to contact the Lung Association for information about smoking cessation programs. Should the employee take a cessation program and quit smoking the employee shall be reimbursed for one-half the cost of the program if he or she remains a nonsmoker for at least six months. Should the employee remain a nonsmoker for at least one year then the remaining cost of the program shall be reimbursed to the employee. The total reimbursement shall not exceed fifty dollars (\$50).
- (f) Enforcement. All new employees shall be given a written copy of this policy at the time of employment. Patrons of Board facilities found smoking in a no smoking area shall be informed of this policy and asked to extinguish their smoking materials. If the patron refuses to extinguish their smoking materials, he or she shall be asked to leave the no smoking area without receiving services. Supervisors shall enforce this policy with their employees in the same manner as other Board policies.
- (g) Conflict Procedure. Conflicts with this policy shall be resolved by the established grievance procedure. (Res. 1-87. Passed 5-18-87.)

### **207.30 FUNERAL LEAVE.**

- (a) A full-time Board of Health employee may use up to twenty-four (24) hours of scheduled work days, with pay, for the purpose of attending the funeral of an immediate family member as defined in Section 207.02(m). Employees may use other available compensatory time, sick leave or take time off without pay with the approval of the Health Commissioner.
- (b) The employee shall furnish proof of death and relationship of the deceased upon application for the foregoing leave authorization. (Res. 5-2001. Passed 9-24-01.)

### **207.31 TARDINESS POLICY.**

- (a) Preamble. Each Board of Health employee shall be required to report to work on time and continue to work to the end of the work period. The employee's attendance is required to be monitored by the immediate supervisor and any variation of the work period requires the supervisor's prior approval. Failure to abide by this long-standing policy has always been considered neglect of duty and could result in disciplinary action. Because there has been concern that this policy is not uniformly enforced by each supervisor, the following policy has been drafted after input from each supervisor.
- (b) Policy. All supervisors shall familiarize themselves with Health Code Sections 207.10 and 207.11 and provide the Health Commissioner with a list containing each employee and their assigned starting and stopping times. This list shall be updated each time a permanent change is made in any of the assigned times. The supervisor shall develop a system that will allow the monitoring of these assigned times. Each occurrence of tardiness is to be recorded in writing by the supervisor with a copy given to the tardy employee. The tardiness record should clearly define the nature of and reason for the occurrence. The record shall be retained by the supervisor until the annual evaluations and shall be used in evaluating the employee's tardiness criteria. However, if the employee believes the tardiness incident is excusable, he may immediately request that the Health

Commissioner review the incident and determine whether or not the incident is to be used for annual evaluation purposes. All tardiness records not excused by the Health Commissioner shall be retained by the supervisor until the annual evaluations and are to be used in evaluating the employee's tardiness criteria. The records shall then be discarded unless the employee disagrees with the evaluation rating and appeals to the Health Commissioner. The records shall be delivered to the Health Commissioner when such appeal is filed by the employee. The Health Commissioner shall promptly notify the employee and the supervisor of his decision.

- (c) Comment. The Health Department has never had a major problem with tardiness of its employees because they are a staff of dedicated, professional people. Therefore, this policy is not intended to be an instrument to be used in a vindictive or harassing manner. It is suggested that each employee arrive at least five minutes early at the worksite in order to get organized and able to report to his workstation, ready to begin work at the assigned starting time. In order to prevent rare and unusual occurrences from affecting an employee's evaluation in a manner that would result in a poor evaluation, the Health Commissioner may excuse any tardiness for due cause if it is brought to his attention immediately after the occurrence. Because tardiness incidents may be excused for due cause, it is recommended that the criteria for annual evaluations be changed to the following schedule:

Excellent	0
Very Good	1 – 4
Good	5 – 8
Improvement Needed	9 – 12
Unsatisfactory	13+

(Adopted effective 2-1-91.)

### **207.32 DRUG-FREE WORKPLACE ACT POLICY STATEMENT.**

- (a) Statement of Intent. This policy is established by the Board of Health of Canton City Public Health in accordance with the Drug-Free Workplace Act of 1988 (PL 100-690, 102 Stat. 4181, Section 5151-5160). This policy is intended to establish a drug-free workplace and will be considered as a condition of employment. The Board through posting of notices and discussions with employees regarding this policy has informed and will inform employees that:
- (1) It is the policy of the Board to maintain a drug-free workplace. The unlawful manufacture, distribution, possession, or use of a controlled substance, or acting under the influence of drugs, in this workplace is strictly prohibited.
  - (2) Drug abuse in the workplace creates a dangerous environment for the employees engaged in the drug abuse and endangers the health, safety and welfare of all employees, the public and other persons in the workplace.
  - (3) Information will be available on a confidential basis on public and private drug counseling, rehabilitation, and employee assistance programs, upon the request of any employee.
  - (4) Progressive discipline may be imposed upon employees for drug abuse violations, up to and including termination of employment.

“Controlled substance” for purposes of this statement means a controlled substance as defined by Chapter 3719 of the Ohio Revised Code, and/or listed in schedules I through V of Section 202 of the Controlled Substances Act (21 USC 812), and as further defined by federal regulations (21

USC 812), and as further defined by federal regulations (21 CFR 1300.11-.15). This list includes, but is not limited to, marijuana, heroin, PCP, cocaine and amphetamines.

A condition of employment for work under any grant received or maintained by the Board from the Federal Government, is that each employee directly engaged in the performance of work funded by such a grant will:

- (1) Abide by the terms of this Statement.
- (2) Notify the Board of the employee's criminal drug statute or ordinance conviction or charge for any violation occurring in the workplace no later than five days after such conviction.
  1. "Conviction" means a finding of guilt (including a plea of no contest) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the federal, state or local criminal drug statutes or ordinances.
  2. "Criminal drug statute" means a federal or nonfederal criminal statute or ordinance involving manufacture, distribution, dispensation, use or possession of any controlled substance.

If the criminal drug statute violation occurred during the employee's working hours with the Board, a sanction will be imposed on the employee so convicted. Within 30 days after receiving notice of the conviction:

1. The Board will take appropriate disciplinary action against such employee, up to and including termination; or
2. If the employee remains employed by the Board, the Board will require such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purpose by a federal, state or local health, law enforcement or other appropriate agency, subject to the Board's health insurance limits.

(b) The Board will notify the grantor of the federal fund of the conviction. This notice supplements, and does not replace, existing rules and regulations of the Board.

(c) Prohibited Conduct. The following conduct is prohibited and will not be tolerated:

- (1) Use of illegal drugs.
- (2) Misuse of legal drugs.
- (3) Sale, purchase, transfer or trafficking of drugs.
- (4) Reporting to work under the influence of drugs or alcohol.
- (5) Having illegal drugs, or their metabolites, including marijuana, in one's system.
- (6) Consuming alcohol any time while at work.

Appropriate disciplinary actions, which may include termination, will be taken against Board employees for violation of this prohibition.

(d) Drug Screening

(1) Pre-employment Testing

- a. Candidates being considered for employment may be subject to preemployment drug testing. Such testing will take place after a conditional offer of employment has been

extended and subject to Civil Service rules and related sections of the Ohio Revised Code.

(2) Reasonable Suspicion Screening

- a. The Board reserves the right to administer a drug or alcohol test when it has reasonable suspicion of an employee using or being under the influence of drugs or alcohol during work hours or while conducting city business. The circumstances under which reasonable suspicion substance screening may be administered include, but are not limited to, the following:
- a. An employee is observed using, possessing, selling, transferring, or trading illegal drugs or alcohol, or illegally using, transferring, or selling prescription drugs.
  - b. An employee appears to be impaired or under the influence of drugs or alcohol.
  - c. An employee has marked changes in behavior not attributable to other factors.
  - d. An employee causes or contributes to an accident (not limited to motor vehicle accidents) while on duty, whether or not such accident results in injury to the employee or others, and drug or alcohol use is suspected.
  - e. An employee violates criminal drug law statutes involving the use of illegal drugs, alcohol, or prescription drugs. Employees shall notify their appointing authority within five days of any charges or convictions of federal or state drug laws.

A supervisor or management employee should document the grounds for any reasonable suspicion testing as soon as possible. Whenever practicable, a second supervisor or member of management staff will be consulted to observe the employee's condition before any request for reasonable suspicion testing. A supervisor or management employee of the Board shall transport or accompany the employee to the collection site. The applicable appointing authority shall be notified of any incident which results in a request for reasonable suspicion testing.

(3) Post-Accident Testing

- a. Post-accident drug and alcohol testing will be conducted whenever a workplace accident involving a city-owned vehicle, or a vehicle being used in conducting city business which involves any of the following:
1. A fatality of anyone involved in the accident.
  2. Bodily injury to the employee or another person that requires off-sight medical attention at a hospital or similar facility.
  3. An employee of the Board is issued a moving traffic violation arising from the accident or is at fault in the accident.
- b. Immediately following any accident, the driver/employees shall notify his or her supervisor of the accident and shall report for testing as soon as possible. Where practical, the driver shall be driven to testing by another employee. If the employee is injured and unable to verbalize consent to testing, the employee grants the Board and its employees the right to request that attending medical personnel obtain appropriate specimens for the drug and /or alcohol testing.

(4) Testing After a Positive Result

- a. Any employee who has tested positive as a result of a reasonable suspicion or post-accident screening and is not terminated from employment, will not be permitted to return to work until he or she has been evaluated by a substance abuse professional, completed any recommended rehabilitation and has had a negative test result. Said employee shall be required to participate in follow up, unannounced testing at the discretion of the Board upon returning to work.

(5) Testing Procedures

- a. All testing shall be conducted by an outside contractor who shall be responsible for compliance with procedures and requirements of testing as set forth in state and federal law. All lab results will be reported to a Medical Review Officer (MRO) designated by the testing facility. In the event of a positive result, as determined by the MRO, the MRO will attempt to contact the employee directly prior to the issuance of the report to the Board. The employee will have the opportunity to rebut or explain the findings if the MRO can reach the employee. The MRO may request information concerning medical history and medications taken by the employee. The MRO shall issue a report from the testing facility. The report shall be stored with the employee's confidential medical information.
- b. An employee who refuses to participate in testing shall be in violation of this policy and subject to discipline up to and including discharge. A failure to execute required forms as part of the testing process is considered a refusal. Similarly, an employee who attempts to adulterate a specimen or otherwise manipulate or impede the testing process shall be subject to discipline up to and including discharge.

(6) Discipline

- a. Employees who test positive pursuant to this policy are subject to discipline up to and including discharge, following any applicable hearing or procedure. In addition to discipline, any employee testing positive under this policy shall be referred to a rehabilitation program. Prospective employees who test positive pursuant to this policy will not be hired, subject to the rules of the Civil Service Commission and applicable law.

(7) Employee Assistance Program

- a. The city of Canton offers an employee assistance program (EAP) for employees or their families in need of assistance with substance abuse issues. The EAP can link the employee or a family member of the employee to resources in the community offering rehabilitation programs for drug or alcohol abuse or dependency issues. Employees with substance abuse problems are encouraged to voluntarily contact the EAP and enroll in a certified rehabilitation program. Voluntarily contacting the EAP, or enrollment in a substance abuse program, before a complaint or testing under this policy, will not adversely affect employment. However, conduct related to substance abuse issues, such as poor work performance, attendance issues and/or behavioral problems may result in discipline up to and including termination of employment.

**207.33 HARASSMENT POLICY.**

- (a) Purpose. The purpose of this policy is to maintain a work environment free from illegal harassment and to provide procedures for reporting and resolving complaints of harassment.

- (b) Statement of Intent. It is the policy of the Board of Health of Canton City Public Health (Board) that all employees should be able to work in an environment free from illegal harassment. - (c) Harassment. Harassment is a violation of Title VII of the 1964 Civil Rights Act, the Americans with Disabilities Act, and as such:

  - (2) Employees shall not make offensive or derogatory comments based on race, color, sex, religion, national origin or disability either directly or indirectly to another person.   - (2) Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
  - (3) Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile, or offensive environment.
  - (4) The following specific conduct, which is prohibited, includes, but is not limited to:
    - A. Threats or insinuations, implicit or explicit, that any employee's refusal to submit to sexual advances will adversely affect the employee's retention, evaluation, wages, promotion, duties or any other condition of employment;

    - G. Sexually oriented jokes or innuendos intended for and/or directed to another employee;
    - H. The display in the workplace of sexually inappropriate photos or jokes.

    - 2. Stopping any observed acts that may be considered harassment and taking appropriate steps to intervene.
  - B. Taking immediate action to limit the work contact between two employees where there has been a complaint of harassment, pending investigation.

- (1) Be sure that the person who is harassing you knows that you do not welcome that person's advances, comments or actions. Put them on notice and tell them to stop. If the harassment is of a serious or physical nature, the employee should report this immediately.
  - (2) Inform your supervisor or any one of the following authorities you are comfortable with, including your division supervisor, Director of Administration, Health Commissioner, any Board member, or the City of Canton's Equal Employment Opportunity Compliance Officer of the harassment.

If circumstances warrant, the Health Commissioner may act to correct or abate the emergency condition.
- (b) If necessary to protect the public health and safety or the health and safety of any person, the Health Commissioner shall order that the premises be vacated forthwith and not be reoccupied until compliance with the order is achieved.
- (c) In cases where it reasonably appears that there is imminent danger to the public health and safety of any person unless the emergency condition is immediately corrected by the owner, the Health Commissioner may cause the immediate repair of such emergency condition. The Health Commissioner shall further cause the costs of such emergency repair to be charged against the land on which the emergency exists as a municipal lien or to be recovered in a civil suit against the owner.
- (d) No owner or person having control of any structure or premises regulated by this Health Code shall institute any action to recover possession of the premises or otherwise willfully cause a tenant to quit habitation involuntarily, demand an increase in rent from a tenant, decrease services to which a tenant has been entitled, or increase the obligations of a tenant, in retaliation against a tenant's good faith complaint or report of conditions in, or affecting his dwelling unit which might reasonably be believed to constitute a violation of a housing, building, health or other lawful provision made to a governmental authority or to the owner.

However, this section shall not apply:

- (1) Where it is established that the tenant has complained to a governmental authority or to the owner subsequent to the receipt of a written notice to leave the premises; or

- (e) The owner, occupant, operator or agent shall be granted a hearing before the Board of Health on the matter upon his request, as soon as practicable, but such appeal shall in no case stay the abatement or correction of such emergency.
