## What is Ohio PREP?

### Personal Responsibility Education Program (PREP) for Foster Care and Adjudicated Youth

Ohio PREP is a grant program funded by the US Department of Health and Human Services, as a result of the Affordable Care Act of 2010. The Ohio Department of Health (ODH) provides grant funding for nine regions.

The program focuses on educating direct-care staff of foster care and adjudicated youth (14 – 19 years) to provide an evidence-based curriculum on BOTH abstinence and contraception to prevent pregnancy and sexually transmitted infections (STI), including HIV/AIDS. The curriculum also incorporates adulthood readiness topics, including financial literacy, healthy relationships and educational career success. These educational programs are provided exclusively to youth in foster care and those involved with the juvenile justice system. The curriculum is not provided in schools.

### GOALS OF OHIO PREP:

- ◆ Reduce the rates of teen pregnancy and STI including HIV/AIDS
- ◆ Increase the number of youth in the target population who successfully transition to adulthood
- ◆ Increase and enhance workforce development of child welfare and juvenile justice professionals by providing consistent, standardized service training on evidence based teen pregnancy prevention curriculum and adulthood topics
- ◆ Develop a coalition of representatives of agencies/ organizations and key stakeholders from all nine counties who work and are familiar with the target population

*You only have one life to live,  
Be Positive, You're Negative*

Dr. Amy Hite is the Administrative Director and Clinical Manager for the Darleen C. Claypoole, R.N. CARE Center (Center for AIDS Research and Education) Department of Medicine, Summa Health System in Akron, Ohio. The CARE Center is located on the Summa Akron City Hospital Campus. Summa's HIV specialty CARE Center is dedicated to providing state of the art consultation and treatment services to patients with HIV (Human Immunodeficiency Virus). Dr. Hite directs and oversees care of greater than 600 CARE Center patients. She is an attending physician of General Medicine and HIV Teaching Services, both inpatient and outpatient. She is advisor of the Internal Medicine Residency Program and is Assistant Professor of Internal Medicine, Northeastern Ohio Medical University. In addition, she is Medical Director of Equitas Health in Akron.

Dr. Hite will provide a presentation on **HIV in Young Adults** in addition to information on sexually transmitted diseases. There will be an opportunity to ask questions and gain knowledge from Dr. Hite's experiences and expertise in the field of HIV and AIDS.

## PREP Coalition

Agencies that work with adjudicated and foster youth throughout Region 6 are invited to join the coalition and serve as resource persons for the **Northeast Ohio Personal Responsibility Education Program (NEOPREP) Region 6**. Coalition meetings/trainings are held semi-annually. Coalition efforts also include providing information about Ohio PREP at regional community meetings. The goals of this project, as well as the process by which the goals are met, will be overseen by the coalition. The purpose of the coalition is to guide the direction of programming efforts throughout Region 6. The coalition members will assist as partners in circulating PREP information, soliciting agency participation, and networking with agency providers.

## Year 5 Grant Cycle:

August 1, 2015-July 31, 2016

If you would like more information about this project or have an interest in participating in the coalition meetings, contact Molly Malloy, RN, PREP Trainer at (330) 489-3322.

## HIV Among Youth

### Fast Facts

- Youth aged 13 to 24 accounted for more than 1 in 5 new HIV diagnoses in 2014.
- Young gay and bisexual males accounted for 8 in 10 HIV diagnoses among youth in 2014.
- At the end of 2012, 44% of youth ages 18 to 24 years living with HIV did not know they had HIV.

In 2014, youth aged 13 to 24 accounted for an estimated 22% of all new HIV diagnoses in the United States. Most of those occurred among young gay and bisexual males. Young black/African American<sup>a</sup> and Hispanic/Latino<sup>b</sup> gay and bisexual males are especially affected. Youth with HIV are the least likely out of any age group to be linked to care. Addressing HIV in youth requires that we give youth the tools they need to reduce their risk, make healthy decisions, get treatment and care if needed, and communicate effectively with others.
